WORK EXPERIENCE

BMO Financial Group

(November 15, 2021 - Present)

Frontend Developer

- Contributed to multi-year accessibility initiative which resulted in BMO web pages getting a certificate verifying that their webpages were accessible
- Collaborated with designers and developers to build out BMO's reusable component library in Storybook with accessibility in mind so that other developers and content authors could focus on business needs
- Led training sessions to help bring other BMO teams on board to the new technology stack

Black Professionals In Tech Network

(July 15, 2023 - October 15, 2021)

Intermediate Frontend Developer

- Built features for the platform which included the user connection/friend requesting, event page, user searching and others.
- Mentored junior developers by pair programming and conducting regular code reviews
- Worked with designers and user experience team to bring the website closer to the figma designs

Wise Publishing

(March 20, 2020 - August 21, 2020)

Frontend Developer Intern

- Evaluate code to ensure that it is valid, is properly structured, meets industry standards and is compatible across all browsers and operating systems
- Built an internal tool to track things like user clicks and ad revenue generation
- Designed and developed the interface for user social sign ins
